

ONEVISION'S PDF ERROR REPORT

NOW SEEING IS BELIEVING: VISUALLY IDENTIFY PROBLEMS QUICKER AND EASIER

YOUR CUSTOMERS VALUE STREAMLINED AND EFFICIENT SUPPORT:

- Direct validation and feedback from “production” offers the maximum of security
- Possible validation at unusual hours – even Sunday or in the middle of the night
- To understand the feedback, no prepress expertise is required: Faulty elements – text, images and graphics – are visualized and described
- Exact description of identified problems are basically error corrections instructions
- Online verification after correction without need for personal communication

ABOUT ASURA AND ASURA PRO

Asura is one of the leading automated software solution for hotfolder-based control, correction and optimization of files in PDF, PostScript, EPS or TIFF format. Asura automatically takes over document 'prefining', examining file contents, correcting errors on the fly, and providing a detailed log report for each document.

Adding the functionalities of PlugSPOTin, PlugFITin, PlugCROPin and PlugWEBin to the Asura application, Asura Pro offers the most advanced quality control and automated document optimization. The integration of XML and JDF job-ticket technologies makes Asura Pro one of the most future oriented software solutions integrated high volume, high quality production.

ABOUT ASURA ENTERPRISE

Asura Enterprise is OneVision's web based solution to connect the customer via Inter/Intranet to the automated quality control and document optimization of Asura or Asura Pro. It streamlines the file transmission of native and any locally saved files in TIFF, EPS, PDF or PostScript format and simplifies user authorization and communication: Being connected 24 hours a day, 7 days a week, the customer receives instant feedback about job status including a softproof of the production ready file. Additionally, a PDF Error Report indicating faulty elements in the document can be attached. Asura Direct is part of Asura Enterprise and works like a printer driver. It allows your customers to directly print all files from their native applications over the Inter-/Intranet to your production site.

NORTHCLIFFE MEDIA GROUP

"Asura's PDF Error file is brilliant - now we can instantly see on screen where the problem file elements are, and how to fix them without any costly delays in our workflows."

Tim Leadbeater, Regional IT Manager
