

## SENIOR DIRECTOR OF WORKFLOW CONSULTING

### **JOB DESCRIPTION:**

OneVision, Inc. USA whose offices are located in Andover, MA (USA) is seeking a highly motivated Senior Director of Workflow Consulting. The ideal candidate should have a strong background in a print production environment, having been responsible for hardware, software and workflow decisions. The Senior Director of Workflow Consulting will oversee a small team of Solution Consultants.

### **SKILLS / QUALIFICATION:**

- BS in Printing Technology, Media Arts, Print Media, or related field
- At least 5 years of hands-on experience in printing
- Experience in managing a production operation of a print service provider (including being responsible for hardware, software and workflow decisions)
- Strong background in print production, color management, and prepress workflows
- Advanced knowledge of PDF files (preflighting, modifying, editing) as well as experience with PostScript, EPS, and raster data formats
- Superlative knowledge of finishing processes in a labeling and converting environment is desirable but not mandatory
- Excellent trouble-shooting skills with production files and multi-faceted workflows
- Strong communication and organizational skills with the ability to multi-task multiple on-going projects
- Customer facing experience
- Must be available to travel both domestically and sporadically abroad to customers/prospects and affiliated companies of OneVision

OneVision is an Equal Opportunity Employer. Compensation is commensurate with experience. OneVision provides a competitive compensation and benefits package.

### **THE COMPANY:**

OneVision is a multinational company specializing in workflow technology for the printing and publishing industry. Innovative products, high-value solutions, and solid management philosophies are key factors in the company's global growth and success. The company is headquartered in Germany and has subsidiary offices in France, United Kingdom, Brazil, Singapore, India, and the US.
