We are expanding! For this we need active support and are therefore looking to strengthen our team in Regensburg as soon as possible:

SOFTWARE DEVELOPER (F/M)
DEVICES AND WORKFLOW

WHAT TO EXPECT …

✓ As part of our "Workflow" team you share responsibility and contribute to the design and development of a software suite that ensures the production of millions of products worldwide in the print and media industry on a daily basis

✓ Programming and responsibility in the development of modules for the control of industrial printing and finishing machines

✓ Conception, development and testing of these solutions together with the manufacturers/users of these machines up to market maturity

✓ Contribute to the design and development of a software universe that ensures the daily production of millions of products worldwide in the print and media industry (e.g. photo books, signage, product labels, price tags, out-of-home advertising, magazines, …)

✓ Challenging and rewarding experiences; ensured by our range of software solutions, their diverse application areas as well as our international customers…

MUST HAVES …

✓ Fun with programming

✓ Successfully completed studies in computer science, a technical subject or a comparable qualification

✓ Analytical and systematic thinking skills

✓ Sound, in-depth knowledge of Java, JavaScript, XML, XSLT, network communication

✓ Basic knowledge of web services

✓ Good to very good knowledge of German and English

✓ Comfortable engaging and interacting with colleagues and people

Nice-to-haves

✓ Experience with data formats such as PDF, EPS, TIFF, JPG, JDF

✓ Experience with cross-platform development (Windows, Linux, Mac)

✓ Client/server communication and databases

✓ Some experience of how the media industry works would ease your start

✓ Basic understanding of web development (HTML, CSS, JavaScript)

✓ Experience in agile software development

✓ Test-driven Development

✓ SVN or other modern version management systems

YOU WILL EXPERIENCE …

✓ Exciting challenges in an expanding technology environment

✓ Flat hierarchies with very short communication and decision-making paths

✓ A motivated team with open and friendly colleagues
